

PRATEEK KR. SINGH

4+ Years Experienced Magento 2 & Adobe Commerce Developer |
12+ Live Projects | 3× Adobe Certified Expert | AI-Driven Development Specialist

+91 8756238171 • prateekvns62@gmail.com • <https://in.linkedin.com/in/prateekvns62>

PROFESSIONAL SUMMARY

Results-driven Adobe Commerce Certified Expert with **nearly 5 years of hands-on Magento 2 development experience**, delivering scalable, high-performance e-commerce solutions across global markets. Specialized in custom extension development, headless commerce architecture, and AI-driven development workflows. Holds **3 active Adobe certifications** and a proven track record across **12+ live production projects** in the UK, Kuwait, India, and beyond. Adept at leveraging AI tools (GitHub Copilot, LLM-assisted coding) to accelerate development velocity, improve code quality, and solve complex integration challenges.

CORE COMPETENCIES

Adobe Commerce / Magento 2 • AI-Driven Development (Copilot, LLM) • Headless Commerce & GraphQL • Custom Extension Development • PWA / Next.js Frontends • REST API & Third-Party Integrations • Payment Gateway Integration (PayPal, Mollie) • Platform Upgrades & Migrations • Performance Optimization • Code Review & QA • Team Mentoring & Knowledge Sharing

TECHNICAL SKILLS

E-Commerce Platform	Magento 2, Adobe Cloud Commerce, Headless Commerce, WordPress, Elasticsearch, Redis, Varnish, Magento B2B, Microservices
AI & Modern Dev	AI-Driven Development, GitHub Copilot, LLM Integration, Prompt Engineering, AI Code Review, Automated Testing with AI
Backend	PHP, Magento Framework, REST API, GraphQL, MySQL, RabbitMQ, Firebase, Composer, PHPUnit, Unit Testing
Frontend	JavaScript, jQuery, Next.js, React (Headless), HTML5, CSS3, Bootstrap
DevOps & Tools	Git, CI/CD, Docker (basic), Adobe Cloud Infrastructure, Linux, AWS, Agile, Scrum
Specializations	Extension Development, Theme Development, Payment Gateway Integration, Performance Optimization, Platform Upgrades, Multi-store architecture

PROFESSIONAL EXPERIENCE

E-commerce Developer • **Net Solutions Pvt. Ltd** • *March 2024 – Present*

- Architect and deliver custom Magento 2 extensions, improving platform functionality and enabling new revenue streams for clients.
- Implement AI-driven development workflows using GitHub Copilot and LLM-assisted code review, reducing development time by up to 30%.
- Worked on Adobe Commerce Cloud environments for development, deployment, and configuration management.
- Collaborate cross-functionally with design, QA, and product teams to deliver scalable Adobe Commerce solutions on time and within scope.
- Designed scalable commerce architectures leveraging event-driven workflows, asynchronous processing, and optimized indexing strategies for high-volume eCommerce operations.
- Optimize backend performance, database queries, caching layers, and indexing strategies to achieve sub-2s page load times.
- Wrote PHPUnit tests for custom Magento 2 extensions, ensuring code reliability and reducing post-deployment bugs across client projects.
- Optimized custom product import flow using Magento queue consumers and efficient database queries, reducing large catalog (200k+ SKUs) import time from 48+ hours to under 3 hours.

Magento 2 Developer · Tradehike Consulting Pvt. Ltd · June 2023 – March 2024

- Enhanced marketable Magento 2 extensions leveraging deep knowledge of core modules, events, plugins, and design patterns.
- Built and maintained headless commerce frontends using Next.js and GraphQL connected to Magento 2 backends.
- Merged AI-assisted debugging and documentation tools to streamline issue resolution and onboarding processes.
- Managed project timelines, coordinated with clients on requirements, and delivered results exceeding expectations.
- Incorporated third-party APIs (payment gateways, social media, shipping) to extend platform capabilities.

Magento 2 Developer · Technology Creators · June 2022 – June 2023

- Expanded high-quality Magento 2 extensions and custom themes aligned with client brand requirements.
- Executed platform upgrades (Magento 2.2.6 → 2.4.4), including database migrations, module compatibility updates, and testing.
- Built REST API integrations for ERP, PIM, and third-party service providers.
- Collaborated with frontend teams on responsive, conversion-optimized theme development using HTML5, CSS3, and Bootstrap.
- Conducted internal Magento 2 knowledge-sharing sessions, upskilling teammates on architecture and best practices.

Full Stack Developer · Satrix Technologies Pvt. Ltd · Aug 2021 – June 2022

- Improved full-stack web application development using PHP, JavaScript, and MySQL.
- Gained foundational experience in e-commerce architecture, API consumption, and agile workflows.

CERTIFICATIONS

Certification	Issuer	Date
Adobe Certified Expert – Adobe Commerce Developer	Adobe	Feb 2025
Adobe Certified Expert – Adobe Commerce Front End Developer	Adobe	Mar 2025
Adobe Certified Professional – Adobe Commerce Developer	Adobe	Oct 2023

KEY ACHIEVEMENTS

12+ Project Deliveries	Delivered 12+ live production projects utilizing Adobe Commerce across the UK, Kuwait, and India — driving measurable growth for global e-commerce brands.
Ace of Innovation Award (Aug 2022)	Recognized by Technology Creators for outstanding contributions to custom Magento 2 extension development, driving business growth, and enhancing eCommerce functionality.
3× Adobe Certified Expert	Achieved three Adobe Commerce certifications — Developer, Front End Developer, and Professional — demonstrating elite-level expertise in the Adobe Commerce ecosystem.
Headless Commerce Specialist	Architected and delivered multiple headless commerce solutions using Next.js, GraphQL, and Magento 2 for international clients, including GSF Car Parts (UK) and Pet Zone Kuwait.
Internal Magento 2 Trainer & Mentor	Recognized for conducting internal knowledge-sharing sessions to upskill teammates on Magento 2 architecture and extension development.
Training & Internship	Machine Learning Certified Intern — Internship Studio (Sep–Dec 2020) Completed specialized Machine Learning training and internship, expanding expertise beyond web development into AI/ML fundamentals — directly supporting today's AI-driven development approach.

KEY PROJECTS

GSF Car Parts (Headless Commerce) <https://www.gsfcarparts.com/>

Stack: Adobe Cloud Commerce, Magento 2, Live Search, Custom Checkout, GraphQL, PHP, MySQL

- Developed OMS/ERP integration for real-time order and inventory sync
- Built custom product import and automated stock & price import pipelines
- Created multiple custom GraphQL APIs as the backend layer for the headless frontend
- Implemented several custom functionalities to meet complex business requirements

Orientbell Tiles (Headless Commerce) <https://www.orientbell.com/>

Stack: Magento 2, Custom Checkout, WhatsApp Business Order Flow, GraphQL, PHP, MySQL

- Solely handled all backend GraphQL API development in collaboration with the frontend team
- Designed and implemented a headless commerce architecture connecting Magento 2 to the frontend
- Integrated WhatsApp Business order flow for seamless customer order communication

Dermacare Direct (Headless Commerce) <https://www.dermacaredirect.co.uk/>

Stack: Magento 2, PHP, MySQL, PayPal, Mollie Payment, GraphQL

- Integrated PayPal and Mollie payment gateways for the UK market
- Developed and maintained GraphQL APIs supporting the headless frontend
- Handled backend customizations for product and checkout workflows

Pet Zone Kuwait (Headless Commerce) <https://petzone.com/kuwait/en>

Stack: Magento 2, PHP, MySQL, GraphQL, REST API

- Built and maintained GraphQL and REST APIs for the headless storefront
- Implemented multi-language and regional configurations for the Kuwait market
- Developed custom backend modules to support pet store-specific requirements

Aquarium Specialty <https://www.aquariumspecialty.com/> & <https://www.aquaspecialty.com/>

Stack: Magento 2 (upgrade to 2.4.6), Payment Services, PayPal, Social Login, reCAPTCHA

- Executed full platform upgrade to Magento 2.4.6, including module compatibility updates
- Set up Adobe Payment Services and PayPal integration
- Managed end-to-end development, testing, deployment, and post-upgrade issue resolution for the B2B eCommerce platform

Tathastu Fashion <https://tathastu.com/>

Stack: Magento 2.4.6, PHP, MySQL, HTML5, CSS3

- Migrated the entire store from WordPress to Magento 2.4.6, including data, products, and customers
- Designed and implemented a custom theme from scratch, aligned with the brand identity
- Configured all store functionalities, including catalog, checkout, and payment workflows

95 Nutrition <https://95nutrition.com/>

Stack: Magento 2, GraphQL, REST API

- Implemented catalog and product management customizations for nutrition product listings
- Implemented custom bulk order pricing logic to support tiered pricing based on order quantity

AI-DRIVEN DEVELOPMENT APPROACH

- ▶ Utilize GitHub Copilot and AI-assisted IDEs for faster boilerplate generation, reducing repetitive coding tasks by 25–40%.
- ▶ Apply LLM-based tools for automated code review to identify potential bugs, security vulnerabilities, and code smells before QA.
- ▶ Incorporated AI-powered documentation generation to maintain up-to-date technical docs for custom extensions and APIs.
- ▶ Integrated AI prompt engineering into debugging workflows, dramatically reducing time-to-resolution for complex Magento issues.
- ▶ Exploring integration of AI-driven product recommendation and search (Adobe Sensei, Live Search) for client storefronts.

EDUCATION

B.Tech – Computer Science & Engineering · Dr. VSGOI, Unnao (AKTU Affiliated) · 2021 CGPA: 7.82 / 10 · Relevant coursework: Data Structures, DBMS, Web Technologies, Operating Systems
